New Students "Learn the Ropes" At Orientation for '88 Tight Year

Freshmen and transfer students gathered in the North Campus gym to hear greetings from university officials on the first day of their two-day orientation.

Incoming freshmen and transfer students in the day division were welcomed to UNH Tuesday, Sept. 6 as part of a two-day orientation presented by the Office for Student Life.

"Fall Horizons '88," held Sept. 6 and 7, opened with greetings from Mike Sagar, Day Student Government president; Dr. Phillip Kaplan, UNH president; Dr. Alexis Sommers, provost; and Dr. James Martin, Jr., dean for student life.

Besides taking care of business picking up tuition receipts, parking stickers and LD. cards, incoming students participated in workshops designed to help them make the transition to UNH and attended dean's meetings to learn what to expect as students in their respective schools.

Freshmen listened to talks about

student government, student activities and leadership development, and participated in a "Horizon Hunt" search to acquaint them with special services on campus. Transfer students took placement tests and some attended academic advising sessions.

All was not work, though. Barbecue lunches gave students the chance to get to know each other, and a magician and a hypnotist provided entertainment Tuesday night.

Freshmen and transfer students living on campus moved into the residence halls on Sunday, Sept. 4, and returning resident students moved in Sept. 6. Evening classes began Sept. 7 and day classes Sept. 8. Graduate and southeastern Connecticut courses began on Sept. 12. **E.**

President Kaplan addressed the new students.

New resident students struggled against the rain as they moved in on the Sunday before Labor Day.

UNH Develops New Tuition Assistance Program

The University of New Haven announced in July a pilot project designed to provide tuition assistance to low-income Connecticut residents who are academically qualified to attend the university but who might be unable to enroll due to financial constraints. The goal of the newly developed Tuition Assistance Program (TAP) is to locate-in conjunction with local school boards, businesses, and community organizations-talented lowincome individuals from throughout the state and assist them in applying for admission to UNH, obtaining the necessary financial aid, and successfully completing a course of study leading to a degree or a professional-level certificate from the university.

UNH held an information session and open house for potential TAP participants on Ĵuly 2. The session, which focused on scholarships and grants for low-income students, was attended by approximately 40 low-income and other qualified residents of the Greater New Haven area who expressed an interest in seeking financial help to fund a UNH education. More potential participants contacted the university following statewide publicity on the new program.

Recruiting for the program will continue; the goal is to have 100 participants within the next two years.

The Tuition Assistance Program includes not only actual tuition assistance for economically disadvantaged residents but also textbook

Fall 1988 Volume XI, No. 1

INSIGHT (ISSN 089-6314) is published quarterly by the University of New Haven. Second Class Postage paid at New Haven, Connecticut, publication number USPS 496-870. Postmaster: Please send form 3579 to Public Relations Dept., University of New Haven, CT 0.80x 9605, New Haven, CT 0.835-9996.

Address correction—to correct addresses, clip out mailing label and return with changes to Public Relations Dept., Address Changes, University of New Haven, CT 06516.

allowances where needed, tutorial and supplemental instruction as required, and the development of academic and social counseling and advisory systems to support the participants throughout their years at UNH. Career counseling and placement assistance are also available.

TAP is open to potential students in all age groups. Funds from the program may be applied to full- or part-time, day or evening programs at the university. Although basic academic requirements need to be met, eligibility is based primarily on financial qualifications. TAP participants will be required to apply for the federally funded Pell Grant. College costs not covered by the Pell Grant will then be paid for through the TAP program.

The inauguration of TAP marks the first step in what

UNH expects will be a longterm project to help low-income citizens achieve career goals, become productive members of the workforce, and take advantage of the wide range of opportunities presented by our changing society.

Commenting on the Tuition Assistance Program, Dr. Phillip Kaplan, president of the university, said, "We at UNH are proud of the role we have played over the years in providing students with the education and commitment to meet their personal career goals and further economic growth and development in our community and our state. Our new Tuition Assistance Program is an important educational initiative aimed at continuing and expanding our leadership in this area. We look forward to continuing our work with educational and community organizations to recruit, enroll and support talented students who, without TAP, might be unable to pursue education at the university level."

The Graduate School dean, Dr. William Gere, was on hand to help advise students at the Waterbury registration session for off-campus classes, Sept. 8. UNH students in the Waterbury area have access to a UNH microcomputer lab housed at Post College's conference center, about a mile from St. Margaret's-McTernan School, where classes are held. Besides having full library privileges at Post's library, UNH maintains a private collection specifically for our own students in Waterbury. St. Margaret's is one of six off-campus graduate school locations in the state.

UNH Hosts Regional College Fair

The University of New Haven hosted a regional college fair for area high school students on Tuesday and Wednesday, October 11 and 12. Juniors and seniors, along with many parents, from more than 20 area high schools attended the event to meet with representatives from nearly 200 colleges and universities located throughout the Northeast.

"We were able to reach a large number of high school students."

The fair, sponsored by the New England Association of College Admission Councelors (NEACAC), a regional affiliate of the National Association of College Admission Counselors, is one of three held each fall at colleges in Connecticut-one at the Coast Guard Academy, one at the University of Hartford and the third at either UNH or the University of Bridgeport. NEACAC's goal in setting up the event is to afford high schoolers an opportunity to talk with admissions and other personnel from many colleges in one day or evening.

"In that respect, this year's college fair was a great success," said Laurie Saunders, director of undergraduate admissions at UNH. "We were able to reach a large number of high school students and, we hope, impress them with the programs UNH has to offer. It was especially useful to have the fair on our campus," she added; "that way, the students and their families were able to see some of our facilities and meet current UNH personnel. Those things are so important to our recruiting effort."

NEACAC has a membership of approximately 1800 admissions professionals who are dedicated to assisting young men and women with the transition from secondary to post-secondary education.

Senior Elected Student Group President

University of New Haven senior Tom Reynolds has been elected president of the Connecticut Student Association (CSA) for the 1988-89 academic year. Reynolds, who has been involved in student activities throughout his college career, served as president of the UNH Day Student Government during his iunior year.

Founded in 1986, CSA is a statewide advocacy group for Connecticut college students. Organized and funded by students, the group voices student concerns and serves as a means by which student government leaders may assist each other in managing their respective student organizations. Activities have included legislative lobbying on the state and federal levels, voter registration drives, and leadership development programs designed to produce effective student leaders.

Discussing his CSA involvement, Reynolds stated that he is proud of the growth the organization has achieved over the past three years. State student associations have existed in other states for a number of years, he said, but the idea is really very new in Connecticut. "We've gone from two students at the University

Lower Gym Expanded and Refurbished

Anyone visiting the UNH gymnasium on the North Campus this fall found many changes. Over the summer, construction crews rebuilt, refurbished and added new facilities in the locker rooms, training area and weight room. All together, nearly \$400,000 worth of improvements were made.

The walls in the lower level of the gym now feature a blue and gold theme, and new entranceways, new flooring and new lighting can be seen throughout. In the men's varsity locker room, used by UNH's varsity basketball, baseball, soccer, lacrosse and track/cross country teams, new benches and showers have been installed, and the lockers have been refurbished and repainted. The same holds true in the visitors' locker rooms, and down the hall, the football locker room has been significantly expanded, with new showers, benches and

On the women's side, the locker room has been reconfigured, with larger lockers and a female coaches' room added. Not to be outdone, male coaches also have a new locker/dressing room, and there are locker rooms and shower areas for referees and other officials, too. The latter are available to UNH faculty and staff whenever interscholastic games are not on tap.

Into exercise and body building? The weight room has been expanded so that there are actually two such rooms in the gym now, with sufficient space for larger numbers of people to use the equipment. This area is open to all UNH students, faculty and staff.

Another section of the gym that has been expanded and given a complete facelift is the training room. There is now a separate area for heat, ice and whirlpool treatments as well as a portion of the room equipped with padded tables for the examination and treatment of

injuries. An office for the head trainer has been added as well. Other improvements include a refinished racquetball court, a new garage and expanded storage areas.

"We're proud of these new facilities," said William Leete, Jr., UNH athletic director. "I hope people will stop by to see them. The changes are extensive and add greatly to the attractiveness of our athletic complex and programs."■

New EMBA Director Named

Dr. Ruth Gonchar Brennan of Bridgeport has been named director of the University of New Haven's Executive MBA program. The appointment, which was effective Sept. 6, was announced by Dean M.L. McLaughlin of the School of Business.

"We are pleased to welcome Dr. Gonchar Brennan," said Dean McLaughlin. "She has excellent credentials and will, we believe, make an important contribution to both the EMBA program and the university."

Gonchar Brennan, who earned a Ph.D. in speech communication and political science from Temple University, brings to her new position broad experience in business, government and higher

education. Prior to coming to UNH, she was president of Mediax Interactive Technologies, a human resources assessment testing firm and, before that, served as director of human resources development for the City of Bridgeport, corporate vice president of the Katharine Gibbs organization, and a market research and planning specialist with the Strategy Workshop, an arm of the advertising conglomerate Interpublic. In addition, she taught fulltime, primarily at Hunter College, for twelve years and has served as an adjunct professor at UNH (in the EMBA program), Fairfield University and the University of Bridgeport.

Bridgeport.
Commenting on her appointment, Gonchar Brennan said: "I am happy to join the UNH team to market an outstanding EMBA program that is, at once, academically rigorous, effective and efficient. That's an unbeatable combination—one that makes an EMBA from the University of New Haven extremely attractive to both potential students and corporate sponsors."

of Hartford to active membership by 15 colleges and universities throughout the state —with several more colleges expected to join this fall. That's a pretty good record."

What's more, Reynolds noted, CSA was the first state student organization in the nation to accept members from private colleges and universities, community colleges and technical schools as well as from public colleges.

"Housing problems, financial aid issues, parking questions affect all college students, no matter what type of school we attend," Reynolds said, "so why shouldn't we work together to resolve them? The CSA gives us the ability to do that."

Reynolds, a criminal justice major, is from Ledyard, Conn. He is the second member of his family to study at UNH; his brother John, a basketball player, graduated in 1987. On campus, Reynolds has been active in the Day Student Government (DSG) since his freshman year. He served as DSG vice-president as a sophomore and as its president last year. After graduation, he plans to study law.

4

Graduate Fellowships Awarded

Twenty-nine University of New Haven (UNH) students have been awarded graduate fellowships for the 1988-89 academic year.

Graduate fellowships are awarded annually to those students who have demonstrated outstanding academic achievement in the completion of a minimum of 21 credit hours of graduate study at UNH. Recipients receive a certificate and a stipend covering tuition for one or two graduate courses, depending on whether the student is enrolled at UNH on a full- or part-time basis. Winners whose tuition is already paid by an employer or sponsor receive a small honorarium.

Graduate fellowship recipients for 1988-89 (some of whom are pictured above) are: Joseph Abraham of West Redding; Robert J. Bessette of Pawcatuck; Edmundo S. Brown of New Haven; Mark A. Caplan

of Hamden: Bruce F. Carmichael of Hamden; Mei-Hsiang Chang of West Haven; Gail L. Conway of Cuvahoga Falls, Ohio; Stephen F. Favreau of New Britain: Robert W. Fish of Old Saybrook; Deborah K. Glick of Naugatuck; Allyson M. Hagen of Meriden; Mark B. Haskins of Meriden: Sandra Honig-Haftel of Cromwell: Daniel L. Janniello of Branford; Leonard K. Kane of Canterbury: Russell F. Kniehl of West Haven; Jean W. Laliberte of Springfield, Mass; Claudia C. Marks of Madison; Michelle D. Mazerolle of West Haven: Michael E. Regan of Wallingford; Deeann P. Richmond of New Haven: Lori Ann Scott of Danbury; Joseph W. Spalding of Pawcatuck: Samuel Lee Sutter of Milford: Iuliette Thai of Fast Haven: Roberta Weinberg of Monroe; Andrew lay Woods of Danbury: Joseph R. Zaharewicz of New Haven; and Steven E. Zalesch of New Haven.

Three Win UNH Engineering Awards

Three 1988 graduates of the University of New Haven have received Buckman Prizes for outstanding achievement in the study of engineering at the university. They are: Jeffrev F. Lundy of Stratford, who earned a bachelor's degree in mechanical engineering at UNH, graduating with a grade point average of 3.99 out of a possible 4.0; David Tipping of Northford, who received a B.S. degree in electrical engineering, finishing with a 3.95 grade point average; and Joseph Valiante of Norwalk, who completed a

degree in civil engineering this year. His grade point average was 3.33.

The Buckman Prize is named for the late Jacob F. Buckman, an important New Haven-area industrialist, co-founder of Enthone, Inc., and a leader in the technology of electroplating. Funds for the award have been provided annually since 1986 by Clarice L. Buckman, a UNH benefactor and former board member, in memory of her husband. Recipients are chosen by the faculty of the university's School of Engineering.

Provost Announces Promotions

The University of New Haven recently announced two promotions in the Provost's Office. Effective September 1, James W. Uebelacker of Milford became vice provost of the university; he had been associate provost. And Caroline A. Dinegar of New Haven became associate provost; she had been assistant provost.

Uebelacker, a mathematics professor, has been affiliated with UNH since 1978, when he joined the faculty as associate professor of mathematics and coordinator of pre-calculus math. He was named assistant provost in 1979 and associate provost in 1982, at which time he was also promoted to full professor. He holds a B.A. in mathematics, magna cum laude. from LeMoyne College and earned his M.A. and Ph.D. degrees, also in math, from Syracuse University.

As associate provost, Uebelacker has been responsible for supervising university academic policies and scheduling. He also oversees the developmental studies program at UNH and chaired the task force which developed the Institute of Computer Studies on campus. In addition, he has published a number of articles and monographs in his field, was selected as an Outstanding Young Man of America in 1980, and was an executive board member of the Quinnipiac Council of the Boy Scouts of America. In 1986, he was appointed to the Statewide Committee to Study the Feasibility of Establishing a Professional Teacher Standards Board, an outgrowth of the Governor's Commission on Equity and Excellence in Education.

Dinegar joined the UNH faculty in 1970 as professor and chairman of the political science department. She was appointed assistant provost (with responsibility for governmental and accreditation matters) and affirmative action director in 1983. She received her bachelor's degree in Far Eastern history from Cornell University

and earned her master's degree and Ph.D. in political science from Columbia University.

Before coming to UNH, Dinegar served as a foreign affairs officer with the U.S. State Department and taught at the University of Connecticut. California State-Northridge, and the University of Virginia. During 1973-75, on leave from UNH, she served as country director for the U.S. Peace Corps in Malaysia. More recently (1980-81), she was a professor of strategy at the Naval War College in Newport, R.I. Her geographic areas of expertise are China and Southeast Asia. In addition, she has been involved in numerous community activities and has long been active in New Haven area politics. In the latter regard, she twice ran for mayor of the Elm City. Along with her duties as associate provost, Dinegar is serving as acting university librarian for the 1988-89 academic year.

Southeastern Grads Earn Academic Awards

At its annual spring awards dinner/dance in Niantic, the university's Southeastern Connecticut branch honored six graduating students with awards for academic excellence. Each attained the highest grade point average in his or her particular field of study among the 1988 graduates from the branch.

The recipients were: Thomas O. Peck of Waterford, who earned a B.S. in computer science/industrial applications; Karen Zrenda, also of Waterford, who earned an A.S. in mechanical engineering; Frank Oller of New London, who earned an A.S. in mechanical engineering; Gerald Arpin of Baltic, who earned a B.S. in electrical engineering; Joseph A. Wilson of Groton, who completed a B.S. in mechanical engineering; and Clifford Bernier of Preston, who received a B.S. in business administration.

A ROUND CAMPUS

This information was prepared and written by the staff of the Public Relations Office from information supplied by UNH faculty and staff.

Provost's Office

Dr. Alexis Sommers, provost and professor of industrial engineering, chaired a panel discussion on World Class Manufacturing at the Sixth World Productivity Congress in Montreal on September 25 to 28. Dr. Sommers is the secretary of the Connecticut Task Force on Manufacturing.

School of Arts & Sciences

Dr. David E. E. Sloane's book, Adventures of Huckleberry Finn: American Comic Vision, was released in August by G. K. Hall-Twayne Publishing, as part of Twayne's Masterworks Studies. Sloane, a professor of English, focuses on the moral and racial perspectives of Huck Finn and explains Twain's literary sources.

Dr. Sloane will speak on Woody Allen's work at the Modern Literature Association conference in December.

Theatre director Lila Wolff-Wilkinson participated in the Association for Theatre in Higher Education Conference in San Diego, July 31 to August 6. She was chosen chair-elect of Theatre as a Liberal Art (TLA) a committee of the ATHE, and will be in charge of planning all of the groups' 1989 programs. Wolff-Wilkinson was an invited speaker on the panel, "Challenges Facing Women in Small Theatre Programs." Also, she chaired "Bringing the Isolation of the Small Programs: Multi-Media Presentation of Successful Productions," and used video, masks and still photos to present "An Approach to Sophocles's

Wolff-Wilkinson has been invited by Gannon University, Pa., to be a guest speaker and respondent to their fall 1988 production of A Midsummer Night's Dream.

Antigone."

Dr. Walter Jewell, professor of sociology, traveled to the People's Republic of China with Dr. David Maxwell. See School of Business section.

School of Business

Dr. David Maxwell, chairman of the public management department, and Dr. Walter lewell, professor of sociology, spent several weeks in the People's Republic of China studying various aspects of the Chinese criminal justice system. They were two of four American scholars who were hosted by the People's Police Officers University in Beijing. They lectured to students and met with faculty, police and prison officials and forensic science technicians in Beijing, Tianiing, Shanghai and Jaingsu Province.

The UNH forensic science program in cooperation with the Northeastern Association of Forensic Scientists sponsored and ran a successful seminar workshop, Forensic Applications of DNA and DNA Typing, May 23-25 at UNH. The seminar attracted speakers from Yale Medical School, the FBI Research and Training Center at Quantico, Va., Lifecodes Corp., Cellmark Diagnostics and the Cetus Corp., in addition to Dr. Robert Gaensslen and Dr. Henry Lee. Dr. Gaensslen is a full professor and the director of the UNH forensic science program; Dr. Lee is the program's practitioner-in-residence and the chief criminalist and director of the Connecticut State Police Forensic Science Laboratory. Participants came from forensic labs all over the U.S. and as far away as Japan. Sixty-five forensic lab practitioners attended.

Dr. Gaensslen and Dr. Lee were among a handful of scientists from throughout the United States invited to attend and participate in A Seminar on Forensic Applications of DNA Typing held by the FBI at its Research and Training Center in Quantico, Va., in late May.

Nancy Folk has joined the forensic science department as laboratory coordinator. She has her B.S. from Oklahoma State University, and will pursue M.S. studies in forensic science while working in the laboratories.

School of Engineering

Dr. B. Badri Saleeby, professor of mechanical engineering, was elected to the board of governors of the Connecticut Pre-Engineering Program (CPEP). CPEP is intended to stimulate interest in engineering as a career among middle and high school students.

Richard Strauss, assistant dean for administration, and Dr. Saleeby have been named site coordinators for CPEP projects in the New Haven area. In July, UNH hosted a two-week pilot session with students from the Roberto Clemente Middle School. See article on page 6.

School of Professional Studies & Continuing Education

Pat Bolles has been appointed assistant director of cooperative education. Bolles, who has been co-op coordinator for the School of Business since January 1987, will coordinate recruitment efforts.

The new co-op coordinator for business programs is Marcia Proto, formerly the assistant to the dean of students and a resident director at Springfield College, Mass. Proto earned a master's degree and a certificate of advanced graduate study in counseling and student personnel administration at Springfield College and received her B.A. in mathematics and education from Providence College, R.I.

Roberta Holland is the new administrative assistant to the director for co-op. Holland was previously the data communications specialist for the Evening Division.

Admissions & Financial Aid

Jim Anderson, director of financial aid, has been elected to a two-year term as vice-president of the Connecticut Association of Professional Financial Aid Administrators (CAPFAA), a statewide organization serving administrators and counselors in this field.

Kathleen Kane was recently named assistant director of admissions. Kane had been an admissions counselor at UNH since 1985. She earned her B.S. in psychology at Springfield College.

Lisa Meyer joined the admissions staff as an admissions counselor. She received an A.S. in marketing and a B.S. in management from Post College in May 1988 and was a member of the Admissions Council at Post. Meyers was also a legislative intern in the Connecticut General Assembly.

Ivo Philbert, a recent graduate of UNH with a B.S. in hotel and restaurant management, has also been appointed as an admissions counselor. Philbert worked as a graduate assistant in the UNH Financial Aid Office, has been a Student Ambassador for admissions.

Student Life

WNHU-FM was recently voted one of the best local radio stations by readers of the New Haven Advocate. The student radio station placed just after WPLR and WKCI, New Haven area commercial stations, in the poll results.

Athletics

Jack Jones was appointed the new sports information director this summer. Jones was formerly assistant to the S.I.D. at Princeton. He received B.A. degrees in public relations and journalism from Purdue in 1985. He is currently completing his master's in public relations from Glassboro State College, N.J. ■

IN MEMORIAM

Robert R. Ruhlin October 24, 1938 - August 3, 1988

An experienced manager, engineer and consultant, Robert R. "Pete" Ruhlin had been director of UNH's Executive M.B.A. program since October 1987.

Born in Oceanside, New York, Ruhlin received his B.S. degree in electrical engineering from the University of Notre Dame in 1960 and his M.B.A. in general management from UNH in 1986. He was a professionally registered engineer, certified management consultant, certified plant engineer, and author of numerous textbooks and articles in the field of facilities management.

A New Canaan resident, Ruhlin was serving as both

president of his own engineering consulting firm, Facilities Management Corporation, and head of the EMBA program at the time of his passing.

Prior to joining the university staff, he was director of the facilities management division of Syska and Hennessy, Inc., a New York consulting firm, from 1972 to 1987; maintenance group director for the K.W. Tunnell Consulting Company of Pennsylvania during 1969-72; and operations and production manager of the New Jersey-based Shell Chemical Company from 1964 to 1968. During 1960-64, he served as an engineer in the U.S. Navv.

Ruhlin's professional affiliations included the American Institute of Plant Engineers (president, 1987) and the American Association of Engineering societies. He was also a member of the board of governors of the National Research Council and previously served on the UNH School of Business Advisory Council.

Pete Ruhlin will be remembered by the UNH community as an accomplished and personable director who was liked and respected by both colleagues and students.

Specialist Speaks at UNH Meeting

Dr. Jennifer A. Jolly, vice president for human resources research and planning at Merrill Lynch Pierce Fenner & Smith Inc., New York City, was the featured speaker at the University of New Haven's sixth annual Spring Colloquium on Industrial and Organizational Psychology. The event was held in the Arbeiter Maenner Chor building on the UNH campus on June 14.

Iolly's topic was careers in the field of industrial and organizational psychology; her talk was followed by a reception.

A well-known practitioner in her field, Jolly is particularly interested in such areas as employee attitude surveys. employee stress, performance appraisal and management planning. She holds a Ph.D. in industrial/organizational psychology from New York University and was affiliated with Citibank, AT&T and J.C. Penney before joining Merrill Lvnch.

The spring colloquium was co-sponsored by the university's industrial and organizational psychology graduate program, the Graduate Student Council and the UNH Chapter of the American Society for Personnel Administrators.

JETS-TEAMS Reminder

As you may remember from reading the Summer issue of Insight, the University of New Haven hosts the annual Connecticut JETS-TEAMS competition. United Technologies sponsors the event. JETS-TEAMS stands for Junior Engineering Technical Society—Tests for Engineering Aptitude, Mathematics, and

The yearly competition, a day-long event in which talented high schoolers participate for honors individually and on a team basis, is designed to encourage academic excellence in math and the sciences. Although the next competition in Connecticut will not take place until March 1989, high school teams must register by November 30 if they wish to participate.

In 1988, teams from more than 50 Connecticut high schools, public and private, came to the UNH campus to compete. We expect to have an even greater turnout in 1989.

You can help by alerting the high school(s) in your area to this opportunity. Anyone wishing more information on the 1989 JETS-TEAMS competition may contact Mr. Richard Strauss, assistant dean, School of Engineering, at 932-7394.

Sixth Graders Learn About Engineering

More than a dozen specially selected sixth graders from the Roberto Clemente Middle School in New Haven took part in a special summer program designed to develop the participants' interest in engineering and the sciences.

The UNH Summer Pre-Engineering Program, from July 6 to 15, brought the youths to campus for eight day-long sessions that included hands-on laboratory and computer experiences as well as exposure to civil, electrical, industrial and mechanical engineering. Participants received certificates of achievement and attended a banquet in their honor.

This specialized program, conducted in conjunction with the Connecticut Pre-Engineering Program (CPEP), was directed by Dr. B. Badri Saleeby, UNH professor of mechanical engineering. The goal was to show the students what engineering is about and to give them the guidance they will need to prepare themselves for college-level engineering studies and careers in the field.

Some of last year's JETS-TEAMS competitors.

SPORTS

This information was prepared and written by the Sports Information staff of the Athletics Dept

Fall Sports Preview

UNH '88-'89 Football Seniors—Front row (1 to r): Tim Jackson, Bernie Gancarz, Walt Oko, Bob Wietecha, Piper Kenny, Major Ruth. Back row (1 to r): Mike Dobos, Paul Zarodkiewicz, Don Scott, Kevin Wade, Mike Horton, Bo Birkhead, Rob Thompson, Issac Kelley.

Football

In last year's final NCAA top 20 poll, the Chargers ranked 16th in the nation. That's the good news. The bad news was only the top eight teams received a bid to the NCAA playoffs. But UNH football fans can rejoice because the playoffs have expanded to 16 teams and UNH should be right in the battle for the NCAA Division II football crown.

A newcomer will lead the Blue and Gold toward their playoff goal-Head Coach Mark Whipple. Before making the move to New Haven, Whipple served the University of New Hampshire as offensive coordinator. During his stay with the Wildcats, he coached a record-breaking quarterback and two record-setting receivers. His resume also includes stints with the USFL's Arizona Wranglers, Brown University, Union College and St. Lawrence University.

Whipple has the good fortune of 12 returning starters, including quarterback Mike Horton, the New England Offensive Player of the Year, offensive guard Rob Thompson, an All-ECAC selection, and Walt

Oko, an All-New England pick at defensive back.

Without a doubt, Horton anchors the offense. The senior signal caller already holds numerous university records, including career total offense (4,691 yards), passing yards in a season (2,607) and a game (411). He ranks second in career passing touchdowns with 28, one behind Paul Kelly '85.

Last season, Horton completed 139 of 294 passes (47.7 per cent) for 1,902 yards and 11 touchdowns. Senior Bo Birkhead will battle Horton for playing time after seeing action in five games last season.

Talented receivers have been a mainstay at New Haven and this year's edition proves true to tradition. Bob Wietecha, Pierre Fils, Charles Griffin and Dan Schwab each have the potential to catch 30 passes this season. Last year, Wietecha grabbed 21 passes for 249 yards while Griffin, the top returning receiver, snagged 22 aerials tor 423 yards.

Ćoach Whipple pledges a more balanced attack than the traditional run and shoo offense. He should not have any problems achieving this goal with his strong corps of running backs. Keith McCoy returns after leading the Chargers in rushing last season. In fact, his 461 yards accounted for one-third of the Chargers' ground game. Marc Williams promises quickness and Jim Lewis offers experience to the Charger running attack.

The offensive line often gets the least amount of publicity but, in reality, is the cornerstone of the offense. In addition to Thompson, the Chargers will benefit from Issac Kelley's experience. Both Thompson's and Kelley's experience will be vital to the line's success as new faces will appear at the two guard positions and at center.

Scoring points alone does not win football games. A team needs to play well on both sides of the ball and UNH's defense is up to the challenge. Whipple deems the line as the defensive strength. Keith Dudzinski and Tom Collett will check in from the tackle positions while Bill Daley will be one of the starting ends. Dudzinski is the top returning tackler with 38 while Collett and Daley aren't far behind with 35 and 32 stops, respectively. Liam McKiernan, Kurt Carney and Leo Pinkston will fight for the fourth starting position.

The linebacker unit was hit hardest by graduation, losing Mike Murphy and Kodak All-American Erik Lesinski. If that wasn't bad enough, Bob Long will not dress this year due to an injury. But there are plenty of talented players awaiting their chance to fill the vacancies. Matt D'Aloia should slip into one of the openings after making 21 tackles in 1987. Among the other probable replacements are outside linebackers Mark Shelton, Nick Lombardo, Wendell Bruno, Cole Scott and Tyrone Bartnett, The middle linebackers are Darryl Mack, Piper Kenny and Spiro Lamberis.

The secondary seems secure with the return of Walt Oko and Mike Dobbs. Oko led the team with four interceptions, and his 37 tackles ranks second among returning starters. Dobbs recorded two forced fumbles and two recovered fumbles as well as two interceptions. The

other secondary spots should be filled by Tim Jackson, Jason Pringle, Richie Scott and Byron Hugge.

The special teams positions could prove interesting this year. Jack Reed was the 1987 opening day kicker but Pat Fitzpatrick took over at midseason. Both battled during camp for the starting nod in '88. Kevin Kirsch owned a 35.6 punting average a year ago and will look to inflate those figures in 1988.

The Chargers have the talent and ability to improve on last year's national ranking. With the expanded playoff field, the Blue and Gold may have an "extended" season in 1988.

Soccer

The football team may not be the only team traveling to the NCAA playoffs this fall. The soccer team hopes to rebound from last year's 7-13 record and return to the perennial playoff team to which fans are accustomed.

Tony Inyama and Ronen Shay return for their second term as co-captains. Inyama, an All-Conference player and NEISL All-Star, led the Charger offense with 11 goals and four assists while Shay contributed three goals to the Blue and Gold cause. Completing the midfield are Douglas Emestica, Frank Omonte and Joe Oha. Emestica provides four seasons of experience and his strong defensive ability will be a hazard to the opposition's attack

Omonte tallied two goals and three assists for seven points, second only to Inyama. He

Soccer captains Tony Inyama (left) and Ronen Shay.

complements Invama in the Chargers' "one-two punch" on offense. Joe Oha returns to the offense after spending a year in the backfield. The Lagos, Nigeria, native was named to the All-Conference second team and could improve on that position this year.

Chris Anigala decided to move from one coast to the other for the 1988 season. After spending last season at a California junior college, Anigala will give the offense more experience as well as quickness and strength.

Defense was never a question mark last season and should remain stable in '88. Petur Valdimarsson anchors the backs as he enters his fourth season with the Chargers. Tom McManus will return with one year of collegiate experience under his belt. An All-State high school player, McManus could be one of the surprises to UNH

Anthony Affragola transferred to UNH from Keene State. He should be able to adapt quickly to the Chargers' style of play.

The goalkeeping tandem of Phillipe Hilaire and Marco Ventura provides the squad with an excellent final line of defense. The duo combined for a 2.10 goals against average, three shutouts and 152 saves. Both enter camp with a clear shot at the starting position.

The Chargers' main goal is to make the NECC playoffs this season and receive an automatic bid to the NCAA playoffs. With another year of experience under their belts, the Chargers may achieve their goal and begin another string of winning seasons, something to which the fans are accustomed.

So far, the football and soccer squads' previews show both teams have the potential to make their respective national tournament. Without a doubt, the volleyball team could give UNH a third national bid in '88.

Volleyball

New Haven finished last season with a 25-16 overall record and a perfect 7-0 New England

Collegiate Conference mark, winning their sixth consecutive NECC Title. Five returning starters and four strong newcomers should help Coach Deborah Chin achieve vet another 30-win season.

Setter Ann Marie Bahantka returns as the squad's leading hitter, sporting a .281 kill percentage. She registered 916 assists and an impressive 172 digs. Bahantka was named to the All-Conference first team as well as earning a spot on the American Volleyball Coaches Association (AVCA) All-Region squad.

Despite standing at 5'9", Luana Perry can defend the net as well as most 6'0" opponents. The middle blocker's strong vertical leap helped her accumulate 31 block solos and 41 block assists, both ranked second on the team. Perry was selected the NECC Player of the Year and was an obvious choice for the All-Conference first

After sitting out two years, Shirley Bacon hopes to return to her 1985 MVP season. A middle blocker, Bacon was named to the All-CVCA second team as well as being an All-Conference first team member. She capped off her success with the conference MVP award.

Despite seeing limited action last season. Arlene Marshall should contribute to a successful year. The St. Lawrence. Barbados, native drove home 25 kills and nine service aces in 26

Mix the above experience with the 1988 recruiting class and you can understand why Charger fans are excited about this season. Although not a freshman, junior Lisa Reza is considered a newcomer. She transferred from Eastern Arizona Community College where she was listed as a setter. She helped the squad to a second place finish in the 1986 JCC National Championship and also to a return trip to the National in 1987.

Wendy Hudson is another transfer student, hailing from Delaware Tech. The Wilmington, Del., native plays

from the outside hitter position. Last season, Delaware Tech attended the 1987 National ICC Championships.

The freshmen include Stephanie Hodge, a 6'0" middle blocker from St. Thomas, VI: Angela Grice, a 5'11" middle blocker from Greenburgh, NY: Missi Pimentel, a 5'4" setter hailing from North Atleboro, Mass; and Noel Ostrander, a 5'11" blocker from Nesconset. N.Y. Ostrander was an All-League and All-County player at Smithtown East High School.

The volleyball team has its work cut out for itself in 1988 but with the talent and experience of its members, an NCAA bid could be well within reach.

Cross Country

After a successful 1987 cross country season, the Chargers will look toward another super year in 1988. Many veteran runners return to the squad including senior captain Brian Creedan, Al Ulinskas, an All-Connecticut and All-ECAC performer, Rob Backhaus. Andrew Soliwoda, David and Mark Rivers and Maurico Montero. This group of runners will face a challenging New England schedule in '88, including the Fairfield Invitational, the Connecticut Invitational Championships and individual meets against URI, Central Connecticut and Southern Connecticut.

Ann Marie Bahantka (right) sets up Shirley Bacon for the kill. Both are senior co-captains for the 1988 volleyball season.

Ken Colby (#29) follows Rob McFadden's (#88) block in the 35-14 win over Norwich Sept.24.

65 points in first two games Football Opens Strong

The Charger football team has so far lived up to its fans' expectations by scoring a lot of points and winning games. In the season opener, UNH handed host California (Pa.) University a 35-30 loss in front of 3000 spectators. Defensive back Richie Scott ran back his two interceptions for touchdowns (33 and 24 yards). For his performance, Scott was named ECAC Division II Defensive Player of the Week.

Also in the game, senior Mike Horton threw two touchdown passes, giving him a school record 30 TDs in his career. The quarterback surpasses Paul Kelly's (BS'85) previous record of 29. Horton finished the game with 110 passing yards, raising his career total to 4, 801. That total eclipsed Kelly's passing yardage standard of 4,732, giving Horton his 16th UNH football record.

The Chargers took a quick 7-0 lead on Pierre Fils' 60-yard punt return and built it to a 14-0 margin on Scott's first interception return just 50 seconds later. California cut the deficit to 14-6 with six minutes left in the first stanza.

UNH bounced back and ssored its third TD of the game on Horton's three-yard scoring strike to Jeff Emery, giving the Chargers what seemed to be a comfortable lead. But the Vulcans scored the next 17 points to grab their only lead of the game, 23-21, with 11 minutes remaining in the third quarter.

The Blue and Gold took the ensuing kickoff and marched 90 yards, culminating with Horton's 20-yard TD pass to Dan Schwab giving the Chargers the lead for good.

UNH never trailed in their second game, a 30-14 win over Edinboro University (Pa.). The Blue and Gold tallied the game's first touchdown when Horton hit Weaver Williams for a three-yard pass. The scoring drive was set up when Bill Daley recovered a fumble on the Edinboro 18 yard line. The fighting Scots tied the game in the second quarter sending the teams into the locker room deadlocked at 7-7.

New Haven came out strong in the third quarter, scoring 13 points on Ken Colby's two-yard run and Horton's 25-yard pass to Bob Wietecha, putting the Chargers up 20-7. After an Edinboro TD, Pat Fitzpatrick booted a 26-yard field goal and Horton threw a 51-yard touchdown pass to Keith McCoy, putting the game away at 30-14.

Horton completed 21 of 39 passes for 258 yards and three touchdowns while Wietecha grabbed 11 passes for 130 yards. Both players were named to the ECAC Honor Roll for their performances.

Defensively, Mike Dobos, Piper Kenny and Keith Stamp each intercepted an Edinboro aerial. Keith Dudzinski made nine stops, raising his teamleading total to 22 tackles.

University of New Haven Alumni Association Organizes for '88-'89 Year

On September 1, even before classes began, the officers and committee chairmen of the Alumni Association met to lay out plans for the year ahead. Association President Frank Schneiders (AS'54) chaired the meeting and called on the following persons for reports:

Ed Drew (BS'75, MS'86) and Sheila Carnam (BS'83), cochairs of next spring's Scholarship Ball. Drew and Carnam are raring to go and are forming a large committee to help them achieve their goal of packing Yale Commons for this big event.

Joe Cieplak (BS'72), chairman of the Phonathon Committee. Cieplak explained that there will be an alumni captain for each of the 34 telephoning sessions this year and that there will be one event, with both alums and parents participating. Cieplak's cochairs are Ray Havican (MBA'78) and Ron Urquhart (BS'81)

Julia Gelgauda (BA'76), Homecoming chairman. The theme for this year's Homecoming was Oktoberfest, and Gelgauda and all who worked with her are to be congratulated on a super job.

John Beckert (MBA'72), chairman of the Distinguished Alumnus Selection Committee. Reporting for Beckert, Scheiders said this committee expects to complete its work by December, making its choice from as wide a pool of potential recipients as possible.

Michelle Robeson (MBA'87), chairman of the Planning and

Evaluation Committee. This is a new committee whose primary function will be to evaluate all alumni activities during the coming year and offer suggestions for change and/or improvement.

In conjunction with the committee reports, the group scheduled Alumni Council and Board meetings for the rest of the year (see box) and added that Mary Hart (BS'75) has agreed to take charge of the council's annual dinner in May.

New Alumni Director Named

Robert H. Morgan of Cheshire has been named associate director of development for alumni relations and annual giving. Morgan, a UNH alumnus (BA '69), is well known among the university community, having been a member of the development staff for seven years. Prior to assuming his current duties, he was associate director of development, in which capacity he worked on major capital campaigns and was instrumental in the establishment of the Parents' Association and the Parents' Fund.

Morgan, who replaces Patricia A. Morgan (yes, they are husband and wife) in the alumni position, is responsible for all aspects of alumni relations at the university, including alumni programs and events, such as the Scholarship Ball; alumni and parent giving, which includes organizing the Phonathon; and building and working with the Alumni Association, Council and Board. He reports to the director of development.

Discussing his new position, Morgan said that he is excited about the high degree of alumni activity at UNH and pleased

with the outstanding level of leadership on the Alumni Board. He added that among his goals will be an expanded effort to reach out to all segments of the alumni community and to encourage even greater alumni involvement in all aspects of

"I already know many of the alums from my years with the university," he stated, and "I look forward to meeting and working even more closely with each and every one to make 1988-89 banner year for alumni and parent relations at UNH.".

Parents' Day Schedule Outlined

"Shake, Rattle, and Roll," an echo of the '50s, is the theme for this year's Parents' Day, set for October 29 on the UNH campus. Numerous events are planned for this special day, designed to bring together students, parents and university faculty and staff.

The schedule includes registration at the Student Center from 11:00 a.m. until noon, followed by an informal luncheon-hamburgers, hot dogs, and the like-under a tent on the North Campus. At 1:30 p.m., the 1988 Charger football team will meet the Springfield College Chiefs at Dodds Stadium. After the game, UNH President Phillip Kaplan will greet parents and students at a reception in the Student Center Lounge. At 5:30 p.m. there will be a buffet dinner in the main cafeteria in honor of parents; a brief Parents' Association meeting will be held over coffee and dessert. The day will conclude with a '50s dance in the cafeteria.

Commenting on plans for the event, President Kaplan said, "Parents and families of all our students are encouraged to join us for what we believe will be an enjoyable day and an excellent introduction to a typical fall weekend on the UNH campus." ■

Distinguished Alumnus Award

The Distinguished Alumnus Selection Committee, under the chairmanship of John Beckert, MBA'72, is currently seeking nominations for the 1989 recipient. The final selection is to be made by the end of 1988.

The award is presented each year at the Scholarship Ball. The award publicly recognizes an alumna or alumnus who has achieved distinction in her or his chosen profession and demonstrated commitment to outside civic and charitable responsibilities. Previous award winners include: Joseph Duplinsky, AS'41, (1984); Orest (Tom) Dubno, AS'64, BS'68, MPA'75, (1985); William Webb, BS'71, (1986); Lester Forst, BS'76, (1987) and Roland T. Bixler, EMBA'78, (1988).

Nominations for this prestigious award should be made using the form provided here and the requested summary sheet.

Responses must be received in the Alumni Office no later than November 15, 1988. ■
